

Library FAQ (English)

ID Number of the book is not found ?

When you search for a book in the library, you may find that the ID number of the book is not found. This is because the ID number of the book is not in the library's database. You can check the ID number of the book by looking at the book's label or by asking the librarian. If you are still unable to find the ID number, you can contact the library's helpdesk for assistance.
